ANFAS KM

Bengaluru, Karnataka, India | anfaskm0123@gmail.com | linkedin.com/in/anfaskm755894

PROFESSIONAL SUMMARY

BCA candidate at Kristu Jayanti University with hands-on experience in web development, database administration, version control, and creative digital content production. Certified in Git/GitHub, MongoDB, and Digital Engineering. Detail-oriented fast learner seeking an internship to apply technical and creative skills in a fast-paced MNC environment.

EDUCATION

Kristu Jayanti University — Bengaluru, Karnataka
Bachelor of Computer Applications (BCA) — Computer Science — Aug 2024 – Jun 2027

Vijaya Higher Secondary School
Higher Secondary Education — Computer Science — Jun 2022 – Mar 2024

Technical High School
SSLC — Electrical Trade, Engineering Drawing, PCM & IT — Jun 2020 – Mar 2022

TECHNICAL SKILLS

Programming & Web: HTML, CSS, JavaScript, Python (basics)

Databases: MongoDB (Atlas & Self-Managed), Database Administration, Query Optimization

DevOps & Tools: Git, GitHub, Version Control, Repository Management

Creative & Design: Adobe Lightroom, Adobe Premiere Pro, Canva, Alight Motion

Soft Skills: Project Management, Cost Estimation, Problem-Solving, Fast Learner, Detail-Oriented

CERTIFICATIONS

Digital Engineering — Infosys Springboard — 2024

Git and GitHub Complete Guide — Infosys Springboard — 2024

MongoDB Database Administrator Path (Self-Managed) — MongoDB University — 2024

Introduction to MongoDB — MongoDB University — 2024

PROJECTS

Brand Identity & Poster Design Portfolio | *Canva, Adobe Lightroom, Premiere Pro* — 2023 – Present

- Designed logos, posters, and branded visuals for academic events and freelance clients.
- Produced cinematic reels and short-form video content using Premiere Pro and Alight Motion.
- Maintained consistent brand identity guidelines across multiple digital platforms.

MongoDB Database Administration | *MongoDB, Atlas, Shell* — 2024

- Completed hands-on labs on database deployment, user access management, and performance monitoring on self-managed clusters.
- Configured replica sets, managed indexes, and performed backup and restore operations.

Version Control System Practice | *Git, GitHub* — 2024

- Built and managed repositories using branching strategies, pull requests, and merge conflict resolution.
- Collaborated on code review workflows demonstrating industry-standard DevOps practices.
